

## Prologue

Following NAMSCON 2013 at AIIMS Jodhpur and the success of the Regional Symposium on Sleep Medicine, there was a major effort in the form of CME program, based on sleep medicine at the SN Medical College, Jodhpur to validate its efficacy and also using CD with presentations to survey sleep education research. Not only this, the Academic Council encouraged and enthused the motivated faculty to embark on Medical Education Research. It culminated in many lateral activities related to research at AIIMS Jodhpur. The current issue is on “Research in Medical Education” and we hope to fulfill the role of academy as a research institution.

The decision of the Council to print 4000 copies of this issue is a major step not only in updating but also enthusing all Fellows, Members including those who secure their membership after passing the special board examination conducted by National Board of Examinations. The wide reach of the Annals amongst all of them will surely encourage additional research in medical education. If this happens, the Academy could have established its rightful place as a leader in enhancing the quality of research in medical education.
