1. INTRODUCTION

National Academy of Medical Sciences (NAMS-India) was established on 21st April, 1961 with the objective of promoting the growth of medical sciences.

It was inaugurated at New Delhi on 19th December 1961 by Pandit Jawaharlal Nehru, the first Prime Minister of India. The NAMS fosters and utilises the academic excellence of health professionals in the country as its resource to promote excellence in medical education and skill development in the field of medicine and allied sciences.

The Academy has been recognized by the Government of India as a Nodal Agency for promoting the Continuing Medical Education for medical and allied health professionals and is advising the Government of India in several matters of National Health Policy and Planning. National Academy of Medical Sciences encourages and sponsors nation-wide CME programmes, Symposia and Workshops in basic sciences and applied clinical disciplines.

The Academy has a council of 18 members, elected by the Fellows of the Academy. NAMS President is the Head of the Council. The Academy confers the Fellowship and Memberships, selected through a peer review rigorous process.

The Academy has served the nation by providing a platform for recognizing eminent clinicians and scientists as its Fellows (FAMS), Members (MAMS and MNAMS) or Associate Fellows (A-FAMS). In addition, NAMS named Orations and awards are also given to eminent medical allied scientists in the country. NAMS has been providing a culture of high quality Continuing Medical Education and skill development.

The present document will help you in filing up the application form for NAMS supported CMEs. Please note that the completed application as per these guidelines will help the NAMS office in processing your application faster. Please refer to the check lists(Sr.No.18 & 19) for filling application form & submission of final report given in this document.

2. NAMS OBJECTIVES

1. The objectives of the National Academy of Medical Sciences (India) are:
 - (a) The promotion of knowledge of Medical Sciences in India and its practical application to problems of national welfare.
 - (b) The recognition and encouragement of merit in all branches of Medical Sciences.
 - (c)
 - (i) To secure co-ordination between medical and other scientific academies, societies, associations, institutions and Government medical and scientific departments and services.
 - (ii) To seek help and co-operation of international agencies and national bodies of other countries.
 - (d) To act through properly constituted National Committees for medical scientific subjects for undertaking medical scientific work of national and international importance as the Academy may be called upon to perform by the public and the Government.
 - (e) To publish such proceedings, journals, memoirs, transactions and other publications as may be found desirable.
 - (f) To promote and maintain a liaison between medicine and other sciences.
 - (g) To secure and manage funds and endowments for the promotion of objectives of the Academy.
 - (h) To undertake any other steps that may assist in, conduce to or be necessary for the fulfilment of the above mentioned aims and objectives of the Academy.

3. NAMS VISION

“To act as a think tank for policy makers in all spheres of medicine, including medical education, research, for cost-effective health care to help the humanity, at national and international level.

4. CONTINUING MEDICAL EDUCATION (CME)

Continuing Medical Education has been one of the principal activities of the Academy in its objectives aimed at keeping the health professionals abreast of the developments in the field.

The objectives of the Continuing Education programme are:

1. To provide opportunities to update knowledge, skills and practices of health professionals and paraprofessionals involved at different levels of health care delivery systems and or in biomedical research.
2. To design and implement educational programmes for postgraduate students in various specialties of medical sciences (with focus on the preparation of candidates for higher level postgraduate medical examinations from the non-formal stream as conducted by the National Board of Examinations).
3. To conceptualize, prepare and disseminate appropriate self-learning materials for various categories of target groups covered under the programme; and,
4. To develop print and non-print Learning Resource Materials in response to, and in congruence with, the training needs and educational requirements.
The Continuing Education programme is implemented through:
 1. Seminars/Symposia
 2. Workshops
 3. Short-term courses
4. Educational Programmes for the development of Human Resource for Health (Scientists Exchange Programme/Training of Junior Medical Scientists etc).

These programmes are being implemented through the NAMS Zonal/State Chapters, Zonal/state convenors, medical institutions, and, national professional associations. The CME Programme Committee guides and monitors the progress on a regular basis.

Government of India, Ministry of Health and Family Welfare recognized National Academy of Medical Sciences as the Co-ordinating nodal agency for Continuing Education Programmes for both professionals as well as paraprofessionals.

5.0. MOHFW LETTER FOR NAMS TO BE NODAL AGENCY FOR CME

S No. 1

No.U.11020/10/87-ME(P)
Government of India
Ministry of Health and Family Welfare

....
New Delhi, the 29 August, 1988.

O R D E R

The Medical Education Review Committee which submitted its report in 1983 had recommended that the Govt. of India may identify one Central Coordinating Agency for Planning, Organising and Monitoring continuing Medical Education Programmes all over the country and a special fund may be created for this purpose. The Recommendation in regard to the identification of a Central Coordinating Agency was accepted by the Govt. As regards funding, it was noted that the Central Govt. was already providing funds to various organisations for conducting Continuing Medical Education Programmes. As regards funding by the States, the State Govts. had been requested to take necessary action for implementation of the recommendations of the Medical Education Review Committee.

The question of identification of an Agency for Coordination of Continuing Medical Education Programme was considered by the Govt. of India and it has been decided that the National Academy of Medical Sciences shall be the Coordinating Agency for this programme in respect of Medical, as well as para-medical personnel.

It has also been decided that a National Coordinating Committee may be established at the National Academy of Medical Sciences for coordinating the various Continuing Medical Education Programmes, and for this purpose the membership of the existing Central Committee of the National Academy of Medical Sciences may be reviewed and Dr.H.D.Tandon, Hony. Advisor in Medical Education, and the Deputy Director General of Health Services (Medical), Dte. General of Health Services may be included as members in this Committee.

The expenditure on account of this programme should be met from within the budget provisions of the National Academy of Medical Sciences.

However, if there are any minor additional inputs required, like, purchase of equipments etc. during the current Five Year Plan for implementing the Scheme, the Academy may propose additional funds in their regular budget-estimates and Annual Plan Proposals during the current Five Year Plan, for consideration of this Ministry and the Planning Commission.

...2/-

In order to make the programme effective during the 8th Five Year Plan, the National Academy of Medical Sciences may make comprehensive plan proposals in their regular Annual Plan/8th Plan proposals, covering all aspects of Continuing Medical Education Programmes for medical, as well as para-medical personnel.

6. PROCEDURE FOR SUBMISSION OF APPLICATION FOR CME

6.1. The applications for soliciting financial/technical support to conduct CME Programmes can be obtained from the Office of the Secretary, National Academy of Medical Sciences, (India), Ansari Nagar, Ring Road, New Delhi-110029.

Completed application forms must be submitted **THREE MONTHS** in advance of the proposed scientific activity.

The application form should be accompanied by the following documents (as given in the proforma):

- a) Objectives of the proposed educational programme
- b) List of speakers with addresses and detailed scientific programme of at least 8 hrs. academic activity.
- c) A questionnaire specifically designed to evaluate the immediate outcome of the CME programme (a model questionnaire is attached to the Guidelines).
- d) Estimate of expenditure (as per pattern given in Guidelines).
- e) Clearly indicate that the Scientific Report and audited Utilization Certificate and audited Income & Expenditure Statement will be sent to the Academy within one month of conduct of CME programme(Section II D).
- f) The application should preferably be forwarded through the Convenor of the concerned Zone(List in Annexure)
- g) The application **MUST** carry the official stamp of the Organising Secretary and Head of the Institution.
- h) The proposal is technically reviewed by a Fellow who is a subject expert. Any modifications or alterations suggested are to be incorporated in the revised proposal to be submitted to NAMS.
- i) A stamped receipt in advance may be sent to enable the Academy to send a crossed cheque for the first instalment of the grant in time.
- j) The grant will be utilised for the purpose for which it is sanctioned.

6.2. Additional requirements

- (i) The programme should promote learning in important areas related to medicine and basic sciences through practical demonstrations, workshops or lectures and seminars.
- (ii) Registration of applicants other than post-graduate students should be encouraged.

- (iii) **Every effort should be made to invite and ensure participation of NAMS Fellows/Members/MNAMS/in the CME programme.**

A Senior Fellow with expertise in the relevant subject shall be nominated by the CME Programme Committee as an Observer and will submit a peer evaluation report in the proforma developed for this purpose.

A copy of the proforma is attached to the Guidelines. He shall be paid TA/DA and an honorarium of Rs.2500/- by the Academy. The name of the Fellow who will act as observer will be communicated to the Organizing Secretary of the CME by NAMS.

- (iv) The organizers of the CME Programmes are required to raise funds through local resources to the extent of at least 15-20% of the estimated expenditure.
- (v) **All announcements made in connection with the programme should highlight the sponsorship of the National Academy of Medical Sciences (India) for the CME programme. Copies of all announcements, invitations, etc. should be sent to the Academy.**

- (vi) If the grant or any part thereof is proposed to be utilized for purpose other than for which it is sanctioned, prior approval of the Academy shall be obtained which may be given only in exceptional circumstances on very special grounds.
- (vii) In case the grant is not utilized for the purpose for which it is sanctioned by the scheduled date of the programme, the grantee shall refund the unspent amount of the grant forthwith, unless prior approval of the Academy has been obtained for the same.
- (viii) Within one month after the completion of the approved CME Programme, a detailed Scientific Report, indicating the names and academic/professional affiliations of the participants and course faculty is submitted in duplicate to the Academy. The Report must include the organisation-cum achievement of the CME Programme by highlighting the following:
 - (a) Content outline and synopsis of the lectures/practical sessions or live demonstrations held;
 - (b) summary of technical discussions held;
 - (c) summary of recent advances highlighted;
 - (d) the gap between knowledge and practice identified;
 - (e) clear recommendations made at the Workshop to reduce and bridge the identified gap;
 - (f) number of participants including post-graduate students, taking P.G. Examination who attended the programme; and,
 - (g) an evaluation by the participants and the Course Faculty providing academic assessment of the programme organized in terms of its usefulness in achieving the stated programme objectives.

While compiling the Scientific Report, it should be ensured that a brief synopsis of the subjects covered in the workshop/seminar is given. It should not be merely the reproduction of the detailed programme, which has already been submitted by the organizer along with the application. Further, whichever topic has been dealt with, it should be briefly described e.g. if it is a lecture on some topic, a brief synopsis of the lecture should be given. Similarly, if it is a practical/clinical demonstration, then a brief description of the technique used to demonstrate a particular disease/function along with the result be given. All attempts should be made to frame the report in such a way that a subsequent reference on a particular subject can be facilitated and may serve as guideline in future.

- (ix) Scientific Report submitted will be sent for peer review to one or more Fellows of the Academy, specially nominated for this purpose by the CME Programme Committee.
- (xi) Appropriate and adequate Learning Resource Material must be provided to the participants. A soft copy of the Learning Resource Material specifically developed for the educational programme should be sent to the Academy to assist this body in future conferences with similar themes organized elsewhere in the country.
- (xii) The Utilization Certificate and Statement of Income & Expenditure, duly signed by a Chartered Accountant or the Accounts Officer of the grantee medical institution/college, shall be forwarded to the Academy in duplicate, in the prescribed proforma (copy attached) within one month after the completion of the CME programme.
- (xiii) The original vouchers relating to the expenditure incurred on the approved CME programme, should be preserved till such time as the accounts of the Academy for the current financial year are audited.

6.3 . Organizer MUST give 5 minutes time slot in the Scientific Program in inaugural session for NAMS Observer in which the Observer will brief the participants about NAMS and its activities. NAMS will provide PPT for the presentation.

6.4 Pre- and Post- test should be fixed in the scientific Programme, objective Questionnaire (max15), for evaluation of knowledge gain by participants of the CME. The Organizer should submit objective questionnaire (Pre- and Post-) at the time of submitting application for grant of financial support.

These questionnaire will be circulated to the participants before the CME Program starts. Pre- test questionnaire should be collected as soon as the CME Programme start. At the end post test should be circulated. This will help in evaluating the participants knowledge gain by attending the CME Programme.

6.5. The Organizer should invite the local members of NAMS Family of their state. Their contact details are given in the following links :

13.GUIDELINES FOR UTILIZATION OF FUNDS RELEASED BY NAMS UNDER VARIOUS HEADS, FOR THE CME PROGRAMME

- (i) As a Rule, the funds for activities under the CME Programme will be released **to the Head of the Institution, in which the Programme is organised.** That institution will subject to the rules and procedures follow the account and auditing of the expenditure incurred out of the grant for CME.

While furnishing a statement of accounts, a certificate to the effect that the accounting and auditing of the expenditure incurred out of the grant received under the CME Programme, has been done as per rules applicable in the case of the Institution/College has to be furnished. The certificate will be recorded in the statement of accounts by the officer responsible for the maintenance of the accounts of the institution (Accounts Officer) which will be duly countersigned by the Head of the Institution/College.

(ii) In exceptional cases the amount of grant may be released to the Director of the programme provided a separate Bank account has been opened for the CME Programme proposed to be organized.

If the accounts for the expenditure incurred do not pass through the normal departmental accounts of the Institution/College concerned, the same will be got checked and certified by the Accounts Officer of the concerned Institution/College or a Chartered Accountant programme).

(iii) The original vouchers relating to the expenditure incurred and income received are to be preserved by the Institution/College or the Director of the Programme, as the case may be, till such time the accounts as furnished to the Academy are audited by the Academy's auditors. These documents will be disposed of only after obtaining a clearance from the Academy.

(iv) The Director of the Programme will furnish an audited Utilisation Certificate and Statement of Income and Expenditure in the prescribed forms (copy enclosed), duly signed by the Accounts Officer/Chartered Accountant/Head of the Institution or any other person authorized by him in this behalf. A statement showing the estimated and actual expenditure under broad heads, with explanations for any major variations in the estimated and the actual expenditure in the form attached should be forwarded with the Utilization Certificate.

(v) Entitlement of TA/DA to the faculty will be according to the Government of India rules.

(vi) Preparation of Scientific Report (Refer instructions given under VIII-XI).

Within one month after the date of completion of the Seminar/Workshop/Symposium/CME programme, a detailed **Scientific Report** indicating, among other things, the particulars of the participants and faculty members who attended, the number of postgraduate students, the benefits achieved should be forwarded to the Academy in duplicate.

It is requested that while compiling the scientific reports, it should be ensured that the brief synopsis of the subjects covered in the workshop/seminar are given. It should not be merely the reproduction of the detailed programme which has already been submitted by

the organizer along with the application. Further, whichever topic has been dealt with, it should be briefly described e.g. if it is a lecture on some topic, a brief synopsis of the lecture should be given. Similarly if it is a demonstration, then a brief description of the technique used to demonstrate a particular disease/function along with the result be given. All attempts should be made to frame the report in such a way that anybody, who wants to refer to a particular subject can use this report as a guideline in future. The second installment of the financial support can only be released if the Scientific Report is in order.
