

Subject: Updating of directory

Warm greetings from the new Secretary-NAMS.

The National Academy of Medical Science (NAMS), established on April 21, 1961, has the mandate to recognize the talent and contribute to the Government and the public as an apex body. The Academy Council has recently proposed a (RRR) committee for bringing reforms in the existing Rules and Regulations to remove the ambiguities and improve its day to day functioning. There is also a need to make the academy broad based involving not only the fellows from the Medical but also the allied specialties could join from across India. The Academy offers annually several named Orations and Awards. Fellows should apply for these in large numbers.

As the elected Fellow of the prestigious Academy you are requested to contribute to the academic and other activities including the election process so that the academy becomes vibrant and active with suggestions from new faces.

Academy is updating the addresses of its fellows.

Kindly send your updated Mailing address, Mobile No. and E-mail Id etc., as per format attached in this email by June 15, 2021, on Email: directory.nams@gmail.com

Your information available with the NAMS Office is attached as under. If no communication is received from your side by June 15, 2021, it will be presumed that the existing details in the academy records are correct and no changes are required. Please communicate freely to seek any clarification.

Kindly note that the Covid menace is still not over. We wish you and your family safe stay.

With best wishes and personal regards

[Devendra K.Gupta]

Hony. Secretary-NAMS
